10. DESCRIPTION OF NONCOMPLIANCE

(b)(6) At 2:25pm, after supervising the humane stunning and dragging of a horse that flipped over onto its back and was trapped in the alleyway to the stunning area, I remained in the antemortem pens to observe humane handling. I observed the plant manager, (b)(6) herding horses into the alley way to the knock box. Nine horses were overcrowded in the alleyway causing undue excitement which was further exacerbated when two more employees from the kill floor began yelling and hitting these horses causing the one in the end of the line to slip and fall. This is a violation of 9 CFR Ch.III regulation 313.2(a) & (b) which state that animals will be handled with a minimum of excitement and discomfort. Also 313.1(b) requires floors to be maintained so as to provide good footing for livestock to prevent slipping and falling. I informed (b)(6) of the violation of these regulations and advised him that all employees handling the horses must be trained in how to handle them humanely. Continued failure to comply with regulatory requirements could result in additional or administrative actions.
