Subject: EPA FORM

NPDES FORM 3510-11

SEPA

United States Environmental Protection Agency Washington, OC 20460 POSISE CRETIFICATION CORP.

Form Approved OMB No. 2040-0211

NO EXPOSURE CERTIFICATION FOR EXCLUSION FROM IMPOSS STORMINATER
PERMITTING

Submission of this No Exposure Certification constitutes notice that the entity identified in Section A does not require permit authorization for its stormwater discharges associated with industrial activity in the State identified in Section B under EPA's Stormwater Multi Sector General Permit due to the existence of a condition of no exposure.

A condition of no exposure exists at an industrial facility when all industrial materials and activities are profested by a slorm resistant shetter to prevent exposure to rain, know, snowmelt, and/or runoff, industrial materials or activities include, but are not finited to, material handling equipment or activities, industrial matchinery, raw materials, informadiate products, by-products, final products, or waste products. Material handling activities include the storage, loading and unloading, transportation, or conveyance of any raw material, intermediate product, final product or waste product. A storm resistant shetter is not required for the following industrial materials and activities:

- drums, barrets, lanks, and similar containers that are tightly sealed, provided those containers are not deteriorated and do not leak. "Sealed" means banded or otherwise secured and without operational tops or valves;
- adequately maintained vehicles used in material handling; and
- final products, other than products that would be mobilized in stamwater discharges (e.g., rock sait).

A No Exposure Certification must be provided for each facility qualifying for the no exposure exclusion. In addition, the exclusion from NPOES permitting is available on a facility-wide basis only, not for individual outfalls. If any industrial activities or metarials are or will be exposed to precipitation, the facility is not eligible for the ne exposure exclusion.

By signing and submilling this No Exposure Certification form, the ontity in Section A is contitying that a condition of no exposure exists at its facility or site, and is obligated to comply with the terms and conditions of 40 CFR 122,26(g).

ALL INFORMATION MUST BE PROVIDED ON THIS FORM.

Petaliad instructions for completing this form and obtaining the no exp	posure exclusion are provided on pages 1 and 4.

Legal Description 3845 Cedarvale Road, Roswell, NM 88203

Section 17 Township 11S Range 25E

N2N2 W 562.05 Ft E 2849.50 Ft N 784.77 Ft

Instructions for the NO EXPOSURE CERTIFICATION for Exclusion from NPDES Stormwater Permitting

Who May File a No Exposure Certification

Federal law at 40 CFR Part 122.28 prohibits point source discharges of stormwater associated with industrial activity to waters of the U.S. without a National Poliutant Discharge Elimination System (NPDES) permit. However, NPDES parmit coverage is not required for discharges of stormwelar associated with industrial activities identified at 40CFR 122.26(b)(14)(I)-(ix) and (xi) if the discharger can certify that a condition of "no exposure" exists at the industrial facility or site.

Stormwater discharges from construction activities identified in 40 CFR 122.26(b)(14)(x) and (b)(15) are not eligible for the no exposure exclusion.

Obtaining and Maintaining the No Exposure Exclusion

This form is used to certify that e condition of no exposure exists at the industrial facility or site described herein. This certification is only applicable in jurisdictions where EPA is the NPDES permitting authority and must be re-submitted at least once every five years:

The industrial facility operator must maintain a condition of no exposure at its facility or site in order for the no exposure exclusion to remain applicable. If conditions change resulting in the exposure of malerials and activilies to stormwater, the fecility operator must obtain coverage under an NPDES alormwater permit immediately.

Where to File the No Exposure Cordification Form

No Exposure Forms sent regular mail:

Forms seni overnight/express:

SW No Exposure Certification (4203M) 1200 Pennsylvania Avenue, NW

SW No Exposure Certification

US EPA East Building, Rm. 7420 1201 Constitution Avenue, NW Washington, D.C. 20004 (202) 584-9545

Completing the Form

Washington, D.C. 20460

You must type or print, using uppercase letters, in appropriate areas only. Enter only one character per space (i.e., between the marks). Abbreviate if necessary to stay within the number of characters allowed for each item. Use one space for breaks between words. One form must be completed for each facility or site for which you are seeking to certify a condition of no exposure. Additional guidence on completing this lorn can be accessed at EPA's websile: www.epa.gov/npdes/stomwater. Please make sure you have addressed all applicable questions and have made a photocopy for your records before sending the completed form to the above eddress.

Section A. Facility Operator Information

- Provide the legal name of the person, firm, public organization, or any other entity that operates the facility or alte described in this cardification. The name of the operator may or may not be the same as the name of the facility. The operator is the legal entity that controls the lacitly's operation, rather than the plant or site manager.
- 2. Provide the telephone number of the facility operator.
- Provide the email address of the lacility operator.
- Provide the mailing address of the operator (P.O. Box numbers may be used). Include the city, state, and zip code. All correspondence will be sent to this address.

Section B. Facility/Site Location Information

- 1. Enter the official or lagal name of the facility or site.
- Enter the complete street address (if no street address exists, provide a geographic description (e.g., intersection of Routes 9 and 55)), city, county, state, and zip code. Do not use a P.O. Box number
- 3. Indicate whether the facility is located on Indian Lands.
- 4. Indicate whether the industriel facility is operated by a department or agancy of the Federal Government (see also Section 313 of the Clean Water Aci).
- 5. Enter the tatifude and longitude of the approximate center of the facility or site in degrees/minutes/seconds. Letitude and longitude can be obtained from United States Geological Survey (USGS) quadrangle or topographic maps, by calling 1-(886) ASK-USGS, or by accessing the Census Bureau at www.census.gov/cgl-bln/cazetteer

Leillude and longitude for a facility in dacimal form must be converted to degrees (*), minutes (*), and seconds (*) for proper entry on the certification form. To convert decimal latitude or longitude to degrees/minutes/seconds, follow the steps in the following example.

Example: Convert decimal latitude 45.1234587 to degrees (*). minutes ("), and seconds (").

- a) The numbers to the left of the decimal point are the degrees:
- b) To obtain minutes, multiply the first four numbers to the right of the decimal point by 0.006: 1234 x 0.008 = 7.404.
- c) The numbers to the left of the decimal point in the result obtained in (b) are the minutes: 7'.
- d) To obtain seconds, multiply the remaining three numbers to the right of the decimal from the result obtained in (b) by 0.05, $404 \times 0.06 = 24.24$. Since the numbers to the right of the decimal point are not used, the result is 24".
- e) The conversion for 45.1234567 = 45° 7' 24".
- 6. Indicate whether the facility was previously covered under an NPDES stomwater permit if so, include the permit number or permit tracking number.
- 7. Enter the 4-digit SIC code which identifies the facility's primary activity and second 4-digit SIC code Identifying the facility's secondary activity, if applicable. SIC codes can be obtained from the Standard Industrial Classification Manual, 1987.
- B. Enter the total size of the site associated with industrial activity in acres. Acreage may be determined by dividing square lootage by 43,580, as demonstrated in the following example.

Example: Convert 54,450 ft2 to acres

Divide 54,450 $\rm R^2$ by 43,450 square feet per scre. 54, 450 $\rm R^3 + 43,560 \, R^2$ /acre = 1.25 acres.

9. Check "Yes" or "No" as appropriate to indicate whether you have paved or roofed over a formarly exposed, pervious area (i.e., lawn, meadow, dirt or gravel road/parking lot) in order to qualify for no exposure. If yes, also indicate approximately how much area was payed or roofed over and is now imparyious area.

EPA Form 3510-11 (09-08)

Page 3 of 4

instructions for the NO EXPOSURE CERTIFICATION for Exclusion from NPDES Stormwater Permitting

Section C. Exposure Checklist

Check "Yes" or "No" as appropriate to describe the exposure condition at your facility. If you answer "Yes" to ANY of the questions (1) through (11) in this section, a potential for exposure exists at your site and you cannot certify to a condition of no exposure. You must obtain (or already have) coverage under an NPDES stormwater permit. After obtaining permit coverage, you can institute modifications to eliminate the potential for a discharge of stormwater exposed to industrial activity, and then certify to a condition of no exposure.

Section D. Certification Statement

Federal statutes provide for severe penalties for submitting felse information on this application form. Federal regulations require this application to be signed as follows:

For a corporation; by a responsible corporate officer, which means;

- (I) president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions for the corporation, or
- (ii) the manager of one or more manufacturing production, or operating facilities, provided the manager is authorized to make management decisions which govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to assure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit

application requirements; and where authority to sign documents has bean assigned or delegated to the manager in eccordance with corporate procedures;

For a partnership or sole proprietorship: by a general partner or the proprietor, or

For a municipal, State, Federal, or other public facility: by alther a principal executive or ranking elected official,

Paperwork Reduction Act Notice

Public reporting burden for this cartification is estimated to average 1.0 hour per certification, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Burden means the total time, effort, or financial resources expanded by persons to generate, maintain, retain, or disclose to provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding the burden estimate, any other aspect of the collection of information, or suggestions for improving this form, including any suggestions which may increase or reduce this burden to: Director, OPPE Regulatory Information Division (2137), USEPA, 401 M Straet, SW, Washington, D.C. 20460, include the OMB control number of this form on any correspondence. Do not send the completed No Exposure Certification form to this address.
