Subject: Responsible Transportation

Good Morning Dr. Gilmore,

I have been working with management of Responsible Transportation this morning to finalize details of our visit to the Sgourney Plant tomorrow morning. It is my understanding all programs are finalized and ready to implement once a conditional grant is issued and production initiated. There is still some final plumbing and electrical work to be completed prior to the initiation of production. All equipment has been placed and mounted on the kill floor. I will be able to provide a more complete report and/or recommendation after tomorrow's visit. If there are any specific questions, issues or information you would like me to glean during the meeting please advise. I will provide further information after tomorrow. Thanks. [REDACTED]

Good Morning [REDACTED]

I have been able to set the final details for our meeting tomorrow. I believe all is as we had initially discussed. We will meet at the Sigmourney plant at or about 10:00 am tomorrow. The purpose of our trip is to perform a final review of written programs and tour of facilities to determine a final recommendation to the district office regarding the issuing of a conditional grant to responsible transportation. I look forward to seeing and working with you tomorrow on this project. Should you have any questions or would like any further information, please do not hesitate to contact me. Otherwise.....see you tomorrow. [REDACTED]
