MEMORANDUM FOR RECORD

SUBJECT: NWW 2007-601-C07

I was notified by the Forest Service Priest Lake office of a possible wetland fill on Kalispell Creek Road. On June 4, I made a site visit and took pictures of what appeared to be wetland soils, gravel, dirt and concrete rubble in dump piles adjacent to Kalispell Creek. There is silt fence installed between the creek and the piles. The parcel is identified as PSS1C on the NWI.

The property is owner by Mike Sudnikovich 208 443-2628
