Re: Death of Michael Brown

Dear Prosecutor

Enclosed is a copy of my initial autopsy report that you requested. My conclusions are based on my re-autopsy findings of August 16; on my review of Dr. autopsy report that I received on October 22; and on the police and medical examiner photographs, X-rays and microscopic slides from the first autopsy, and my examination of Mr. Brown's clothing, all of which I saw for the first time on November 12, the day before my Grand Jury testimony, and which I continue to review.

I have not yet been permitted to have access to requested police crime scene photographs and reports, to the results of the forensic examination of the patrol car, to the Christian Hospital EMS report of Mr. Brown and the emergency room examination
