Dr. Wagner,  
Here is my feedback on the Valley Beef NOS verification plan. This is why I inquired as to Dr. [REDACTED] status. Thanks,

Dr. [REDACTED]  
I would suggest having Dr. [REDACTED] include more detailed findings in the verification plan. Stating "used per plan" doesn't really indicate what the firm actually accomplished. Also, including the number/type(s) of animals slaughtered each day would be useful, as if they are only slaughtering one animal, the gates and pens wouldn't be an issue. If there were multiple animals in the pens and going through the gates, that might show that the plant has indeed improved their situation. This is just my 2 cents. Thanks,

Good morning all.

Attached is the human handling verification plan for Week 46 at 07299.

Thank you,
