Mr. De Los Santos reported the hands on training had not been performed for that reason. I am assuming this to mean, the first time a too large animal is presented, Mr. Rick De Los Santos will need to be the company member who performs the stunning so as to train other employees.

Do we all agree?

Looks good to me. Not much to say is no large animals were present.

Subject: 07299 Verification Plan

Good afternoon all.

Attached is the verification plan for 07299 using the last version I received ~1115 hours 3/2/12.

Please provide feedback on the comments I have entered so I can make any changes before I print and mail to Ms. Symons.

Thank you,

[REDACTED]
