Subject: 180 day verification for Est. 7299

180 dayMOI Est
07299 9 30 12....

I'm heading out for a plant visit, but I'll be in the office Thurs. I can work on the LOW then.

Memorandum of Interview 180 day report for EST 07299

DATE: September 25, 2012

LOCATION: Est. 07299, Valley Meat Company, Roswell, NM, 88203

SUBJECT: 180 day MOI

1. *All animals too large to walk into the stun box will be diverted to abnormal stunning procedure "B":*
Dr. [REDACTED] District Veterinary Medical Specialist (DVMS), reviewed all of the verification plans completed since the 60 day visit. These include week 35 through week 39. The plant has had no inspected kill during that time so no assessment of plant actions can be made.
2. *Company will use [REDACTED] to knock animals per abnormal stunning procedure "B".*
Dr. [REDACTED] District Veterinary Medical Specialist (DVMS), reviewed all of the verification plans completed since the 60 day visit. These include week 36 through week 39. The plant has had no inspected kill during that time so no assessment of plant actions can be made.
3. *Employees will be retrained in abnormal stunning procedure referred to as "procedure B".* Dr. [REDACTED] Supervisory Public Health Veterinarian (SPHV), verified on 3/9/2012 one employee, Mr. Eddie De Los Santos, sanitation foreman, had been retrained in "procedure B" according to company training records. No additional training has been noted on any subsequent verification plan.

At this time Dr. [REDACTED] recommends ending the suspension for another 30 days since the establishment has not slaughtered under inspection since March 26, 2012, giving inspection personnel no opportunity to observe the process.

Dr. [REDACTED] DVMS
