IOWA DEPARTMENT OF INSPECTION AND APPEALS

Petition by Front Range Equine Rescue )  
and the Humane Society of the United )  
States )  
)  
For the Adoption )  
of Rules Relating to the Adulterated and )  
Unsafe Nature of Horse Meat )  
)

OBJECTION TO PETITION FOR  
RULE MAKING

Introduction

This Objection to Petition for Rule Making is submitted in response to the Petition for the Adoption of Rules ("Proposed Rules") under Iowa Administrative Code, Rule 481-31.1 (137F) Inspection Standards (the "Petition") filed by Front Range Equine Rescue and the Humane Society of the United States (collectively, "Petitioners") and the subsequent request to submit comments from Steven Mandernach, Bureau Chief for Food and Consumer Safety of the Iowa Department of Inspections & Appeals ("DIA"). The Petition is substantially similar to the petitions Petitioners filed with the United States Food & Drug Administration ("FDA") on March 26, 2012<sup>1</sup> and with the United States Department of Agriculture ("USDA") on April 9, 2012<sup>2</sup> (collectively, the "Federal Petition") in which they requested the federal government "to classify all horses who were formerly companion animals, wild horses, or work and sport horses (involved in ranching and competitions, including rodeos and racing), and any other horses

<sup>1</sup> Petition to Create Rules and Regulations Governing the Sale, Transport and Processing of Horses and Horse Meat Intended for Human Consumption (No. FDA-2012-P-0299) (March 26, 2012), available at <http://www.frontrangeequinerescue.org/documents/petition.fda.slaughter.pdf>.

<sup>2</sup> Petition to Create Rules and Regulations Governing the Sale, Transport and Processing of Horses and Horse Meat Intended for Human Consumption (Petition No. 12-04) (April 9, 2012) available at [http://www.fsis.usda.gov/PDF/Petition\\_SchiffHardin\\_040612.pdf](http://www.fsis.usda.gov/PDF/Petition_SchiffHardin_040612.pdf).

without a proven lifetime medical history” as unsuitable for use in the production of equine meat for human consumption.<sup>3</sup> To our knowledge, neither the FDA nor the USDA has taken any action on the Federal Petition.<sup>4</sup> Petitioners filed this Petition with the DIA in response to the December 13, 2012, application for federal inspection services for equine processing filed by Responsible Transportation, L.L.C. (“RT”), an Iowa limited liability company located in Sigourney, Iowa. The Petition was filed with the intent, or the intended effect, to shut down RT’s equine processing operations.<sup>5</sup> The Proposed Rules require every equine processed into meat for human consumption to have a valid Equine Passport, defined as “an electronic document, approved by the Iowa or United States government and issued within six months of the birth of an equine, and a corresponding microchip, installed in each equine by a veterinarian prior to the creation of the Equine Passport.”<sup>6</sup> Neither of the Petitioners is organized for the prevention or promotion of food safety or human health. The Proposed Rules, cloaked in terms of human health and safety, are merely a guise for the Petitioners to advance their professed agenda of the protection of all animals, and to circumvent an adverse decision of the U.S. Supreme Court delivered last year.<sup>7</sup>

---

<sup>3</sup> See *Supra* Note 1 at 1; *Supra* Note 2 at 1.

<sup>4</sup> Letter from Bernadette Dunham, Director of Center for Veterinary Medicine, Department of Health & Human Services, to Bruce Wagman, Attorney for Front Range Equine Rescue and the Humane Society of the United States (September 17, 2012) (on file at <http://www.regulations.gov/#!documentDetail;D=FDA-2012-P-0299-0006>) (stating that the FDA requires more time to issue a final response due to the complexity and number of issues contained in the petition).

<sup>5</sup> Front Range Equine Rescue, Iowa Regulators Asked To Rule that Horse Meat is Inedible, [http://www.frontrangeequinerescue.org/documents/release.may14.2013.pdf?\\_r=1&](http://www.frontrangeequinerescue.org/documents/release.may14.2013.pdf?_r=1&) (“The request to the Iowa Department comes in the wake of the federal government’s announcement that it is considering applications from horse slaughter horses anxious to open, including Responsible Transportation in Sigourney, Iowa.”).
