Dear Sir or Madam:

Thank you for your e-mail of April 20, 2012, to the Department of Agriculture (USDA), regarding your concerns about horse slaughter. The Food Safety and Inspection Service (FSIS) has been asked to provide you with a response, and I appreciate the opportunity to address your concerns.

FSIS is the public health regulatory agency in USDA responsible for ensuring that meat, poultry, and processed egg products are safe, wholesome, and accurately labeled. FSIS enforces the Federal Meat Inspection Act (FMIA), the Poultry Products Inspection Act, and the Egg Products Inspection Act, which require Federal inspection and regulation of meat, poultry, and processed egg products prepared for distribution in commerce for use as human food.

Currently there are no facilities approved for horse slaughter in the United States. Following a decision by Congress in November 2011 to lift the ban on horse slaughter, one establishment, located in New Mexico, has applied for a grant of inspection exclusively for equines and FSIS is reviewing the application. However, given that the Agency last conducted a horse inspection 6 years ago, FSIS has determined that despite the congressional decision to lift the ban, the Agency will require a significant amount of time to update its testing and inspection processes and methods before it is fully able to develop a future inspection regimen.

For more information on food safety, please visit the FSIS Web site at <http://www.fsis.usda.gov>.

Thank you again for writing.

Sincerely,

Daniel L. Engeljohn, Ph.D.
Assistant Administrator
Office of Policy and Program Development

Protecting public health by preventing food borne illnesses is FSIS' top priority.

Help protect your family. Check Your Steps at <http://www.foodsafety.gov/keep/>
and get ready to Clean, Separate, Cook, and Chill.

Food safety is important to everyone.
