Subject: Responsible Transportation Update

Good Morning,

Responsible transportation has continued construction the last 24 hours. The work remaining is related to plumbing of sinks on the slaughter floor, and electrical work associated with kill floor equipment. In discussion with the establishment it appears the time table will be moved to late next week or early the following week (week of June 17). I am in the process of providing them FSS Form 5200-7 order for the establishment to order their brands. They anticipate official hiring and beginning training of plant employees the end of next week to the beginning of the following week. As just an estimate, I would not expect the establishment to be ready to slaughter prior to the week of June 24th. I will be making another trip to the establishment to meet with plant management again tomorrow, Friday, June 7th. Please let me know if you have any questions or if I can provide any further information. Thanks.
