Subject: 4-5-13 RE: Urgent Follow-up Needed....

Thanks. These statements look good. The NEPA analysis plan, [REDACTED]

[REDACTED] We cannot yet predict when all FSIS procedures will be ready and the grant finalized for the initiation of slaughter but we, as stated before, process the grant up to the final stage. Perhaps the plants signaling that they are ready for their final walk through is what is causing the confusion. Regardless, all internal FSIS steps have not been completed yet.

I don't think it came from this office or the field personnel involved with this facility. See the attached message that addresses an update regarding this facility to Dr. Gilmore. However, the plant has contacted the office and the plan is for the FLS, EIAO, and DVMS to conduct a review at the facility next week if the facility states they are ready. The plant stated they thought they would be ready for the review probably by next Wednesday. I believe we are in line with the Agency expectations.

Thanks,

Paul Kiecker
