RE: Rains Natural Meats Correspondence Revisions – April 26th

Dear Mr. Kiecker:

I am sending you this amended letter. Fortunately, I am a better meat processor than a typist or proofreader.

First, I noticed that I spelled Dr. Trout's name wrong by including a "little e" so I want to correct that.

Secondly, I need to clarify that we will be testing each horse that is processed in our facility for Ivermectin and Phenylbutazone residue. My previous letter didn't specifically refer to those two drugs.

Best regards,

Sincerely yours,
RAINS NATURAL MEATS

DAVID RAINS, President
