Subject: RE: Rains

Mr. Rains has been informed that he needs to present the proper clean water act permits from the MO DNR and follow up with them for the permit. He stated at the time they installed his lagoon they issued an 'exemption' to lagoons of his size because they were understaffed. If he comes up with other info from MO DNR I will pass that along.

He said he would have a request for an extension of his voluntary suspension ready Thursday during the visit. He also said they had their recall plan ready. Thank you,

Rob Clarkson, DVM
Frontline Supervisor
Springdale District, Circuit 06
bb 785-764-9945

Dr. Clarkson, if you have not done so already, please inform Rains that they will need to follow up with the MO DNR on their clean water act permit. They will not be able to operate until they have the permit.
