**Subject:** RE: Volume of production

Hi all -

Springdale estimate: at start up will be approximately [REDACTED] horses per week. after about 3 months - may go up to [REDACTED] per week.

Julie

Can each DO give me your best estimate of daily equine slaughter numbers for the facility in your DO. For the litigation, I need to provide OGC with an estimate for start-up and what likely could be the average number slaughtered after 3 months. Give your best estimate based on knowledge and practical considerations.

Daniel L. Engeljohn, PhD, FSIS
