Rob,

I spoke with David Rains yesterday and the DNR inspection of the lagoon did NOT happen. He said the appointment was made for 1:00 pm and the inspector called him at noon and informed him that someone in Jeff City had called it off again. The inspector was in Gallatin when he was called and told NOT to proceed. He told David that it may be rescheduled for next week.

David said he will let you and I know as soon as something concrete happens.

Have a nice weekend.

If he contacts you, give me a call. We need to get a copy of the General Permit to the DO.

I spoke with Mr. Rains this morning. He stated MO-DNR is inspecting his lagoon today at 1:00 pm. He is going to contact me or Dr. Woodworth when he gets his approval.
