**Subject:** Re: Rains

Hmmm, if we knew everything at the right time I guess it could happen. There are so many people in the mix on this one it may be difficult to coordinate.

I know he is going to ask, is there any way to align resources so he can operate right when he gets his grant? I'm not sure how to answer this one.

Always the difficult questions, there is no timeline, but we strive to meet the needs of the grantee. It takes at least a weeks notice to align resources, we can't change IPP schedules in the middle of the week without an emergency or agreement. Thanks Dr. Clarkson.

David Rains called me this morning. He wanted to let me know he located the June 10<sup>th</sup> letter from Mr. Kiecker, which answered his questions about certification. He asked how soon inspectors would be available after he sent his stuff in and he was able to receive a grant?
